About Us!

Community Futures Peace Country is a community driven, non-profit organization staffed by business professionals and guided by a volunteer Board of Directors. We provide a wide range of small business services and business management tools for people wanting to start, expand, franchise or sell a business. We also run a number of specialized business programs, organize exciting business events, and actively work with community and business leaders to foster rural economic growth.

Supported in Alberta by Prairies Economic Development Canada, Community Futures has been supporting small business and rural economic diversification since 1986. Community Futures has established 90 Community Futures organizations throughout rural Western Canada, including 27 offices in Alberta.

Given the importance of small business to Canada's changing economy, one of the primary focuses of the CFs is to foster entrepreneurial development by providing both financial and technical support to new and existing small businesses.
